FORD FIESTA S280

180-380BHP

Complete in house designed, engineered and manufactured by Turbo Technics.

Direct fit Hybrid performance turbo for FORD FIESTA 1.6 ECOBOOST, STAGE 2.

Complete with fitting kit including silicone inlet hose, designed to fit with standard air box.

Includes all the parts required to fit to the engine.

S280 Specifications

- Turbo Technics designed larger upgraded billet compressor wheel
- Full size K04 turbine wheel upgrade
- Turbo Technics designed anti-surge ported compressor housing
- Turbo Technics large A/R turbine housing (nickel-alloy)
- Bearing housing and bearing system upgrade (K04)
- Upgraded journal bearing and shaft
- Turbo Technics 360° thrust bearing assembly
- Competition seal kit

550+ BHP

Complete in house designed and manufactured by Turbo Technics.

Direct fit Hybrid performance turbo for VAG GROUP IS38 ENGINE
Golf R MK7, Audi S3, Seat Leon Cupra R

Complete with silicone inlet hose designed to fit with standard air box.

S277 Specifications

- Turbo Technics designed 'TT70' spec billet compressor wheel
- Turbo Technics designed T36 turbine wheel
- Turbo Technics designed bespoke anti-surge ported compressor housing, large A/R
- Integrated compressor housing diverter valve location
- High strength billet aluminium compressor back plate
- Turbo Technics designed bespoke turbine housing, incorporating pulse convertor technology
- Turbo Technics designed bearing housing and bearing pack system
- Upgraded journal bearing and shaft size
- Turbo Technics designed 360° reinforced thrust bearing assembly
